

Filter Belts

Dewatering using "Nanotechnology"

This fabric is woven with a high performance polymer alloy that fights wear and abrasion resulting in substantially increased life.

24/8xG Abrasion Resistant after 57 days

Polyester with 1/3 Nylon after 45 days

Benefits:

- > Superior Cleanability
- > Increased Drainage Capability
- > Greater Stability And Damage Resistance
- > Exceptional Life And Durability
- > New Bleed Through Urethane Seam For Full Encapsulation
- > Parts And Service For All Makes And Models
- > Emergency Service Available For Same Day Delivery
- > Unibar Welded Stainless Steel Connecting Clips And Seam Wires
- > Our Press Belts Meet Or Exceed OEM Specifications

Dust Collection

- Dust Bags (all types)
- Pleated Cartridges
- Pleated Bags
- Custom Manufacturing

Dust Accessories

- Bag Retainers (cages)
- Diaphragms & Repair Kits
- Solenoids & Repair Kits
- Timer Boards
- Sequential On-demand Gauges
- Leak Detection Powder
- Black Lights
- Dust Bag Precoat

Liquid Filtration

- Filter Press Cloths
- Center Feed
- Corner Feed
- Plate & Frame
- Belt Press Cloths
- Larox Type Cloths
- Bag Filters & Housing
- Cartridge Filters
- Depth Pleated Carbon Housings

Vacuum Filter Cloths

- Rotary Drum
- Horizontal Belt
- Sectors
- Pan Filters

Liquid Hardware Vacuum

- Drum Filter Grids
- Scrapers (all types)
- Tracking
- Rollers
- Doctor Blades
- Flex Connectors
- Sector Elements
- Seals
- Valves & Wear Plates

Pressure Hardware

- Metal Pressure Leafs
- Filter Press Plates
- Inline Filter Housings
- Metal or Plastic

Other Filter Products

- Air Intake Elements • Automatic Backwashing Permanent Media Systems • Compressed Air & Gas • HVAC • Liquid-Liquid Coalescers • RO Membranes & Systems • Spin-on Hydraulic • Stainless Steel Elements • Custom Products and much more.....
